Ending the cycle of homelessness together

Who we are

There are about 12,000 Londoners sleeping rough with many more 'hidden homeless', sofa surfing or living in unsecure accommodation.

Greenwich Homeless Project is a local charity providing emergency accommodation and support for people experiencing, or at risk of, homelessness in Greenwich and surrounding areas. Our day centre and 14 room night shelter provides hot meals, showers, laundry facilities, Wi-Fi, and a friendly, warm environment where our casework team help guests into stable accommodation.

Every day we help our guests rebuild their self-confidence and wellbeing, and regain agency over their lives.

In 2024/25 we helped **81%** of our night shelter guests moved on into positive accommodation

What our guests say

"...when you go from sleeping in the streets, to having just a little space where you're able to put your stuff, sleep and rest, ... for me, it was like gold."
